

Do you have any questions about foot & ankle conditions that could be answered by research?

We want new ideas for research for the treatment of foot & ankle conditions, which could help patients in the future. We want to hear from ANYONE with an interest in improving healthcare outcomes for patients being treated for foot and/or ankle conditions.

We are the Foot & Ankle Priority Setting Partnership; a collaboration between the British Orthopaedic Foot & Ankle Society and the James Lind Alliance, funded by BOFAS.

PLEASE WRITE YOUR QUESTIONS HERE.
QUESTION 1

QUESTION 2

EXAMPLE QUESTIONS FROM OTHER REVIEWS:

SHOULD I HAVE MY BROKEN WRIST TREATED WITH SURGERY?

WHAT KIND OF SPINAL REHABILITATION IS BEST?

WHAT SORT OF HIP REPLACEMENTS ARE AVAILABLE?
